

PPC PROJECT ON GOOGLE ADS (BRAINWARE UNIVERSITY SEARCH CAMPAIGN)

Introduction

This project focuses on creating a Google Ads PPC Search Campaign for Brainware University to promote its academic programs and attract prospective students. The campaign was designed to reach relevant users searching for information related to Brainware University admissions, courses, fees, scholarships, and programs. The project covers the major stages of campaign creation, including campaign objectives, keyword selection, audience targeting, location targeting, ad copy creation, bidding strategy, and budget setting.

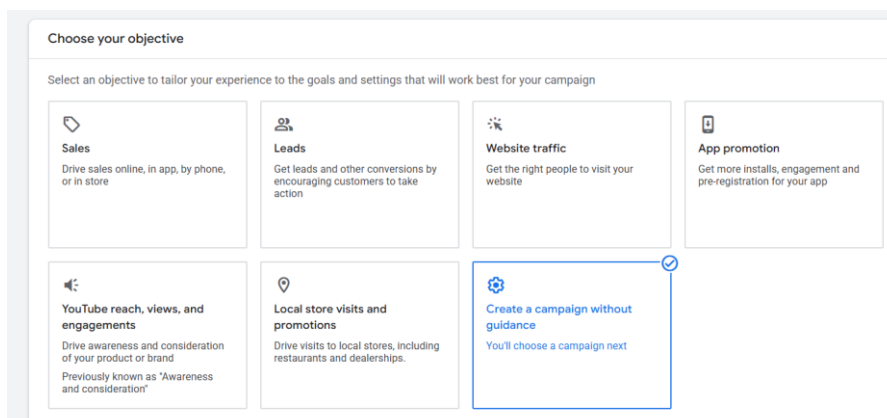

Step 1: Campaign Selection

I started the PPC project by opening Google Ads and navigating to Goals → Campaign to access the campaign section.

Step 2: Campaign Objective

I selected “**Create a campaign without guidance**” to manually choose the campaign type and configure the Google Ads campaign settings.

Step 3: Campaign Type

I selected **Search** as the campaign type to run text-based ads on **Google Search**.

Select a campaign type

Performance Max Reach the right people wherever they're browsing with ads on Google Search, YouTube, Display, and more	Search Drive action on Google Search with text ads	Demand Gen Drive demand and conversions on YouTube, Google Display Network, and more with image and video ads	Display Reach potential customers across 3 million sites and apps with your creative
Shopping Promote your products from Merchant Center on Google Search with Shopping ads	Video Drive action on YouTube with your video ads	App Promote your Android or iOS app on Google Search, Play, YouTube and partner sites with app ads	

Step 4: Campaign Naming

I selected “**Create a new campaign**” and named the campaign “**Search-6 19.9.2026 Brainware University**” for the PPC project.

Would you like to resume from an existing campaign draft?

Your account has existing campaign drafts with the same campaign type, allowing you to continue where you last left off setting up your campaign

☐ Continue from an existing campaign draft

☒ Create a new campaign

Campaign name

Search-6 19.9.2026 Brainware Search Campaign

Step 5: Website Selection

I selected **Website visits** and entered the **Brainware University website URL** as the destination for the campaign.

Select the results you want to get from this campaign ⓘ

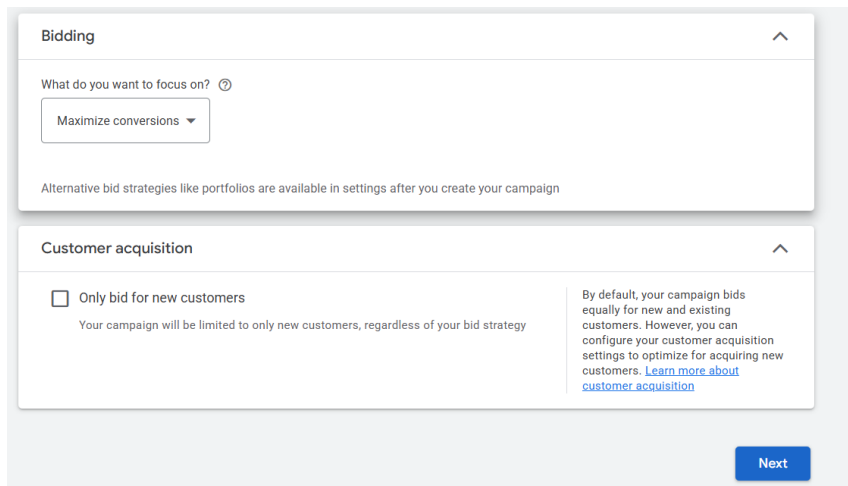

☒ Website visits

☐ Phone calls

https://www.brainwareuniversity.ac.in/

Step 6: Bidding Strategy

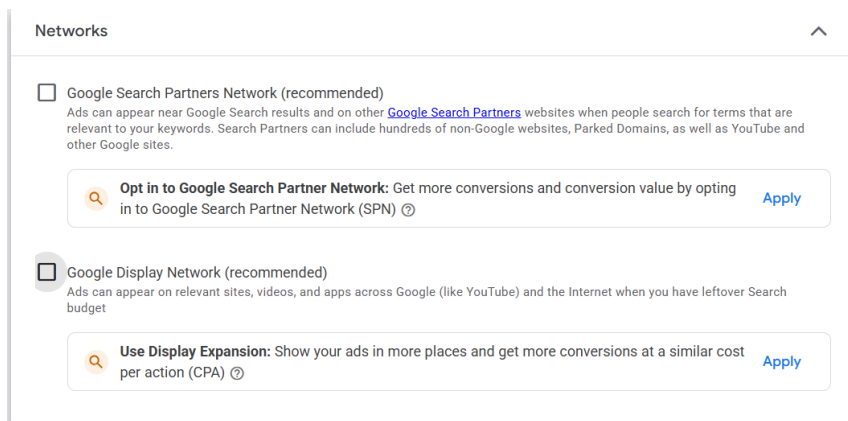

I selected **“Maximize conversions”** as the bidding strategy to optimize the campaign toward generating more conversions.

The screenshot shows the 'Bidding' and 'Customer acquisition' sections of the Google Ads setup. In the 'Bidding' section, 'Maximize conversions' is selected from a dropdown menu. Below it, a note states: 'Alternative bid strategies like portfolios are available in settings after you create your campaign'. In the 'Customer acquisition' section, the checkbox for 'Only bid for new customers' is unchecked. A note explains: 'By default, your campaign bids equally for new and existing customers. However, you can configure your customer acquisition settings to optimize for acquiring new customers. [Learn more about customer acquisition](#)'. A 'Next' button is located at the bottom right.

Step 7: Network Settings

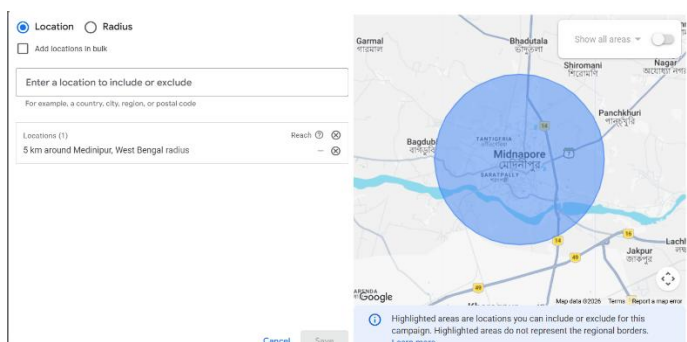

I turned off **Google Search Partners Network** and **Google Display Network** to keep the campaign focused on **Google Search results**.

The screenshot shows the 'Networks' section of the Google Ads setup. The 'Google Search Partners Network (recommended)' checkbox is unchecked. Below it, a note states: 'Ads can appear near Google Search results and on other [Google Search Partners](#) websites when people search for terms that are relevant to your keywords. Search Partners can include hundreds of non-Google websites, Parked Domains, as well as YouTube and other Google sites.' There is a button that says 'Opt in to Google Search Partner Network: Get more conversions and conversion value by opting in to Google Search Partner Network (SPN) [Apply](#)'. The 'Google Display Network (recommended)' checkbox is also unchecked. Below it, a note states: 'Ads can appear on relevant sites, videos, and apps across Google (like YouTube) and the Internet when you have leftover Search budget.' There is a button that says 'Use Display Expansion: Show your ads in more places and get more conversions at a similar cost per action (CPA) [Apply](#)'.

Step 8: Location Targeting

I selected a **5 km radius around Medinipur, West Bengal** to target users within the chosen geographical area.

The screenshot shows the 'Location' targeting settings in Google Ads. The 'Location' radio button is selected. Below it, there is a text input field with the placeholder 'Enter a location to include or exclude' and a note: 'For example, a country, city, region, or postal code'. Below the input field, there is a list of locations: 'Locations (1): 5 km around Medinipur, West Bengal radius'. To the right of the list, there are 'Search' and 'Reset' buttons. Below the list, there are 'Cancel' and 'Save' buttons. On the right side, there is a map showing the location of Medinipur, West Bengal, with a blue circle indicating the 5 km radius. The map includes labels for various locations: Garmal, Bhadutala, Shiramoni, Nagar, Panchkuli, Medinipur, Bagdub, Lachi, and Jakpur. At the bottom of the map, there is a note: 'Highlighted areas are locations you can include or exclude for this campaign. Highlighted areas do not represent the regional borders. [Learn more](#)'.

Step 9: Language & Ad Settings

I selected **English** as the campaign language and specified that the campaign **does not contain EU political ads**.

The screenshot shows two sections of the Google Ads interface. The top section, titled 'Languages', has a sub-header 'Select the languages your customers speak. ?'. It contains a search box with the placeholder text 'Start typing or select a language'. Below the search box, the word 'English' is displayed with a close button (X). The bottom section, titled 'EU political ads', has a sub-header 'Does your campaign have European Union political ads? Required'. It features two radio buttons: 'Yes, this campaign has EU political ads' (unselected) and 'No, this campaign doesn't have EU political ads' (selected). To the right of these options, a note states 'EU regulation requires Google to ask this question' and provides a link: 'Learn how an EU political ad is defined'.

Step 10 Audience Targeting

I selected relevant **audience segments** based on education level, technology interests, and education-related search intent to reach potential students.

The screenshot displays the 'Audience segments' interface. At the top, it says 'Select audience segments to add to your campaign. You can create new Your data segments by clicking on + New segment in the Search tab. ?'. Below this is a table with two main columns: 'Search' and 'Browse'. The 'Search' column lists categories: 'Who they are (Detailed demographics)', 'What their interests and habits are (Affinity)', 'What they are actively researching or planning (In-market)', 'How they have interacted with your business (Your data segments)', and 'Your combined audience segments (Combined segments)'. The 'Browse' column shows a list of selected segments: 'Parents of Teens (13-17 years)', 'Education > Highest Level of Educational Attainment Bachelor's Degree', 'Education > Highest Level of Educational Attainment High School Graduate', 'Affinity', 'Technology', 'In-market', and 'Education'. Each segment has a close button (X) to its right. A 'Clear all' link is located at the top right of the segment list. The interface indicates '5 selected'.

Step 11: Keyword & Asset Generation

I entered the **Brainware University** website URL and provided a description of its programs, academic strengths, and career

opportunities to help generate relevant **keywords, headlines, and ad descriptions.**

Keyword and asset generation

Get help creating your ad

Google AI will use your URL and the information you provide to create assets, like keywords, headlines, and descriptions for you to review. Generated content may be inaccurate or offensive, so please review and check the responses. To improve Google AI, human reviewers may read, annotate, and process the information you provide. Don't enter anything you wouldn't want reviewed or used.

Your use is subject to Google's [Terms of Service](#) and [Generative AI Prohibited Use Policy](#). Your data is handled as explained in the Google [Privacy Policy](#).

Where will people go when they click your ad?

Final URL (required)*

Keyword and asset generation is not available in all languages

What makes your products or services unique?

Describe the product or service to advertise (required)*

Brainware University is a top private university in Kolkata, West Bengal, India, offering a wide range of undergraduate, postgraduate, PhD, and diploma programs in fields like engineering, management, law, and multimedia. We pride ourselves on our 36 years of academic excellence and our commitment to providing students with a future-ready, career-driven learning experience. Our focus on industry-relevant curriculum, advanced laboratories, and strong industry tie-ups ensures that our graduates are well-prepared for the workforce. We also offer a robust placement program with a 98% placement rate and a strong network of global recruiters.

Step 12: Keyword Selection

I added relevant **high-intent keywords** related to Brainware University, including university, admission, courses, fees, scholarships, and location-based searches.

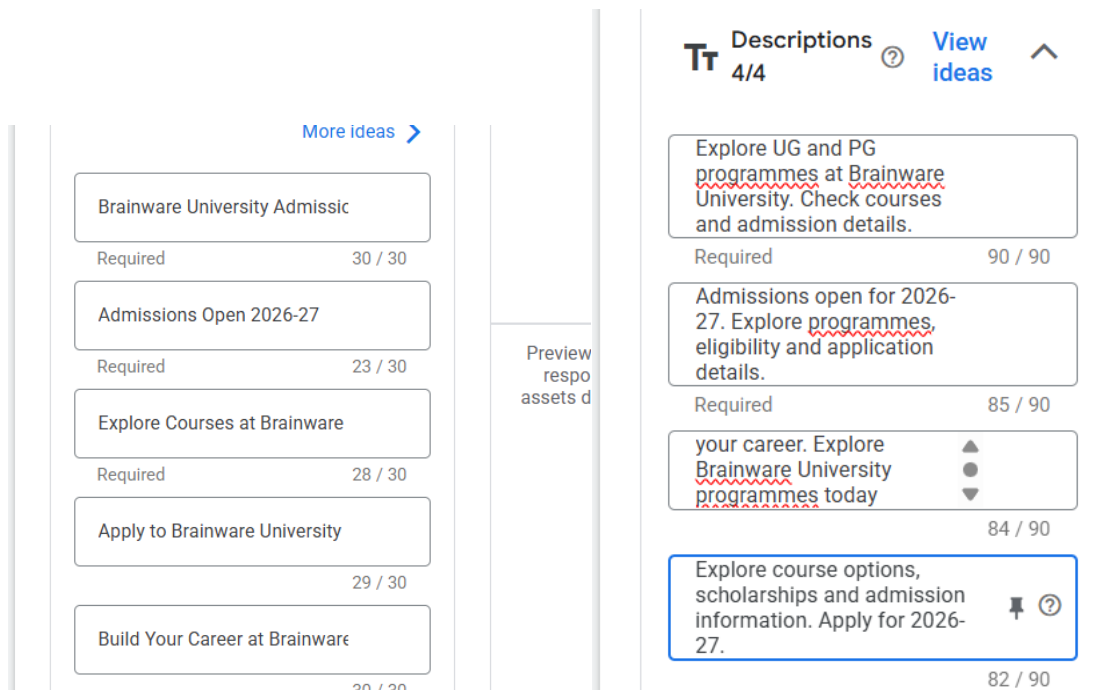

Enter keywords

Keywords are words or phrases that are used to match your ads with the terms people are searching for

[brainware university]
"brainware university"
[brainware university admission]
"brainware university admission"
[brainware university courses]
"brainware university fees"
"brainware university scholarship"
[brainware university kolkata]

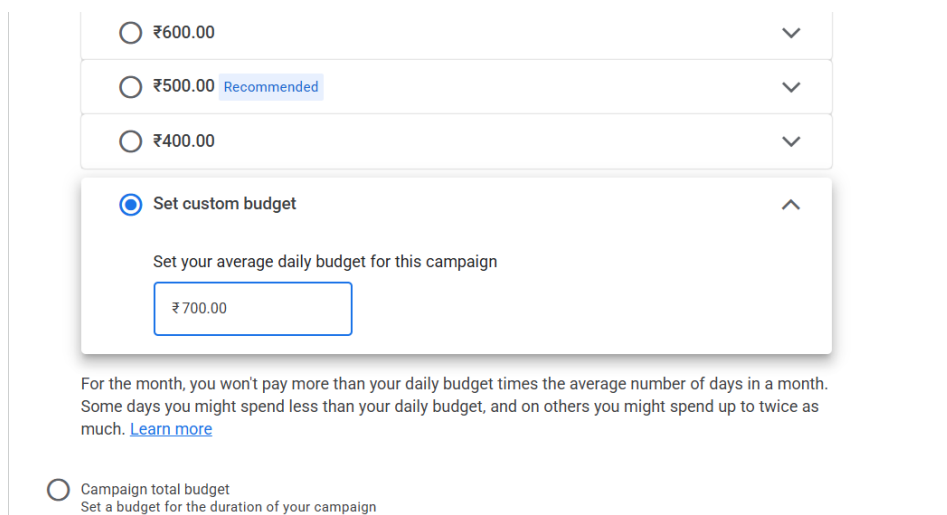

Step 13: Ad Copy

I created relevant **headlines and descriptions** focused on Brainware University admissions, courses, career opportunities, and the 2026–27 admission cycle.

Step 14: Budget Setting

I selected a **custom daily budget of ₹700** for the Google Ads campaign.

Conclusion

Through this PPC project, I gained practical experience in creating and configuring a **Google Search Ads campaign** for an educational institution. I learned how to select relevant keywords, define the target audience, choose appropriate campaign settings, create compelling ad copy, set a bidding strategy, and allocate a daily advertising budget.

Overall, the project helped me understand how PPC advertising can be structured to reach potential students and drive relevant traffic to a university website.
